भर्गो देवस्य धीमहि धियो यो नः प्रचोदयात् ॥

A journey woven into every thread

Some things are found... The exceptional must be sought!

For **Silk House**, the search has always taken us back to India — a land where craft is inseparable from culture, and where the art of weaving has been refined through generations of patient hands, instinctive knowledge and unwavering devotion to detail.

Our quest has carried us across the length and breadth of the country, following roads less travelled and seeking out the makers behind the finest rugs. It's a journey that led us to **Panipat and Varanasi**, two of India's great centres of rug making, where an extraordinary working culture remains steeped in heritage and artistry.

At first light, we travelled... Flights caught at the crack of dawn revealed a privileged view of a countryside awakening beneath us — fields emerging from the morning haze, villages stirring, roads slowly filling with life. Beyond the horizon waited a vibrant culture of making; workshops where generations of weavers began another day in the quiet pursuit of perfection.

Here, craftsmanship is inherited rather than instructed. Techniques are passed from one generation of weavers to the next; an understanding of fibre, tension, texture and proportion refined over years of practice. Each hand woven rug carries something of this human imprint — the subtle irregularities, the depth of texture and the character that can only emerge from time, skill and touch.

Yet tradition is only part of the story...

...**Our collection** reflects a modern understanding of how we live, bringing together the richness of natural fibres such as **wool** and **jute** with the versatility and performance of specialised synthetic fibres.

Designed for intimate interiors, expansive living spaces and the outdoors alike. Through considered processing and specialised techniques, these materials are transformed into rugs of distinctive texture, character and exceptional quality.

The result is a collection as varied as the journey itself.

Each rug is different. Each has its own language.

And so, what began as a journey in search of the finest rugs became something more — a celebration of India's extraordinary craft, the people who keep it alive, and the enduring beauty created when heritage, material and human hands come together.

Born of a quest... Woven through generations... Collected for a life well lived!

NATURAL & ORGANIC RUGS

Natural fibres possess a beauty that cannot be replicated. Drawn from the earth and shaped by nature, where varying texture and unique colour shading form an expression of individuality, affording each rug their own identity.

As no two leaves, flowers or living creatures are ever entirely alike, the natural variations found in wool, jute and cotton are an inherent part of their beauty. ***No two pieces will ever be entirely identical***—and therein lies their distinction.

Much like a fingerprint is unique, and not flawed!!!

240cm x 340cm · JBJ010A2

Material: Cotton, Jute, Wool

Cotton is a natural, renewable resource obtained from the cotton plant. Its fibres are soft, easy to care for, durable, and suitable for allergy sufferers. Cotton rugs are breathable and absorb moisture, helping to create a comfortable indoor climate in your living space.

Jute is a renewable natural fibre made from the stalks of the Corchorus plant – sturdy, durable and biodegradable. Thanks to its natural qualities, jute rugs are antistatic, durable and resistant to dry dirt. As jute is sensitive to moisture, it thrives best in dry living spaces.

Wool is a natural fibre obtained from the fleece of sheep. Thanks to its natural properties, wool is self-cleaning, temperature-regulating, and resistant to dirt and water. That's why wool rugs are especially easy to care for and create a pleasant atmosphere in your living space all year round. Odours disappear when aired out. The elastic structure of wool also makes the rugs durable and shape-retaining.

While every effort has been made to ensure accuracy, the colours and dimensions shown in this catalogue may vary slightly from the finished product.

Due to the natural fibres and hand-made processes within the collection, variations in colour, texture, pattern, weave and finish may occur.
Slight irregularities are inherent to the materials and craftsmanship, and these characteristics should be regarded as unique effects.
